DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13 and 14-41, drawn to a system and/or method for maintaining patient information and treatment compliance, classified in class 705, subclass 2.
 - II. Claims 42, and 46-48 drawn to a system for providing reminders classified in class 702, subclass 177.
 - III. Claims 43-44, drawn to a phone card, classified in class 379, subclass 114.2.
 - IV. Claim 45, drawn to a medical container, classified in class 206, subclass 534.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility as a medical

records management system; invention II has separate utility as a due time monitoring system; invention III has separate utility as a prepaid calling card and account; and invention IV has separate utility as a container with indicia. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
